Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Art Unit: 1742

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 2, 2004 has been entered.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1-3 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation in claim 1, last line "wherein the niobium powder has a CV value of at least 89,600 (CV/g)" introduces new matter. While the CV value

Art Unit: 1742

based on the information disclosed in Table 1 might give support for from 89,600 CV/g (assuming that the calculation is correct) and up to 194,000 CV/g, there is no support for CV value higher than this upper limit.

Claim Rejections - 35 USC § 103

4. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Behrens in view of Fife (US patent No. 6,051,044). The rejection was made in office action mailed 3/31/03 is incorporated herein by reference with additional following remarks.

Applicant has amended the claims to further include the CV value of the niobium powder and asserted that there is no motivation to combine Behrens and Fife based on the disclosure at column 1, lines 9-35 of Fife, that Rule 132 Declaration shows that it is important for the amount of cobalt and silicon not to exceed 100 ppm by weight in niobium powder in order to provide electrolytic capacitors having reduced leakage and that the superior results achieved by the claimed invention are unexpected from the combination of Behrens and Fife.

With regard to the assertion that there is no motivation to combine and the showing of Rule 132 Declaration, these issues have been addressed in the final office action mailed 10/1/03 and are incorporated herein by reference.

With regard to the superior and unexpected results, applicant has stated that the cited references do not disclose or suggest the recited CV value range. The examiner finds that this is not an evidence to show superior or unexpected results over that of the

Art Unit: 1742

cited references because the CV value disclosed by Behrens and relied by the applicant is of Ta powder and that the niobium CV value disclosed by Fife is not of the fine-grained and high purity niobium powder. Off course they will be different. Note that the rejection is not based on either Behrens or Fife but on the combination of Behrens and Fife.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ngoclan T. Mai whose telephone number is (571) 272-1246. The examiner can normally be reached on 7:30-4:00 PM Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (571) 272-1244. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
